

BDM PROGRAMMER FOR ECU SUZUKI BALENO 1.6L

BDM Programmer support Suzuki Baleno 1.6L , Suzuki Esteem 1.6L.

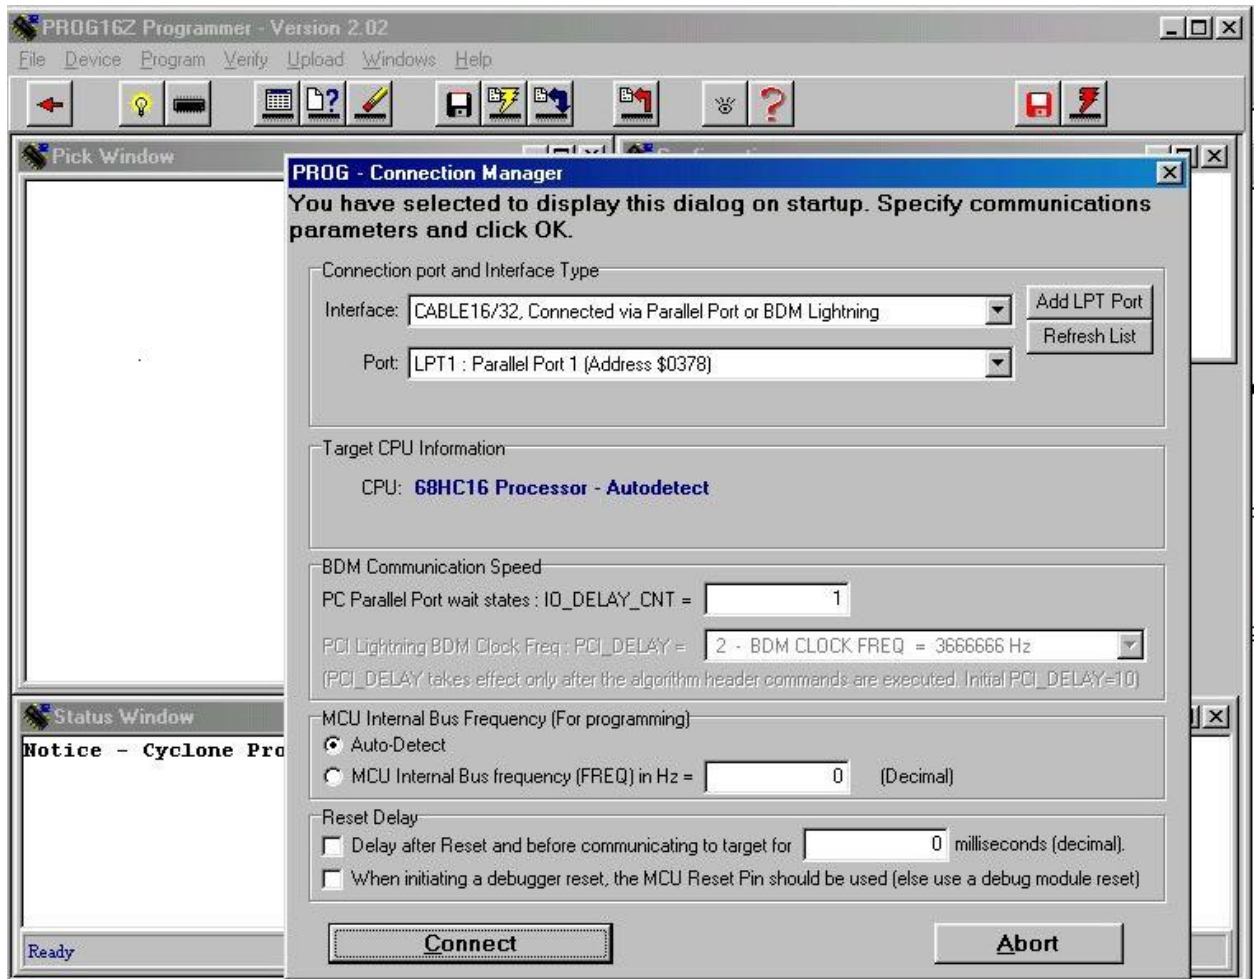

Other versions of ECU with processor Motorola MC68HC16 from the Suzuki probably also work but have not been verified.

Operations sequence

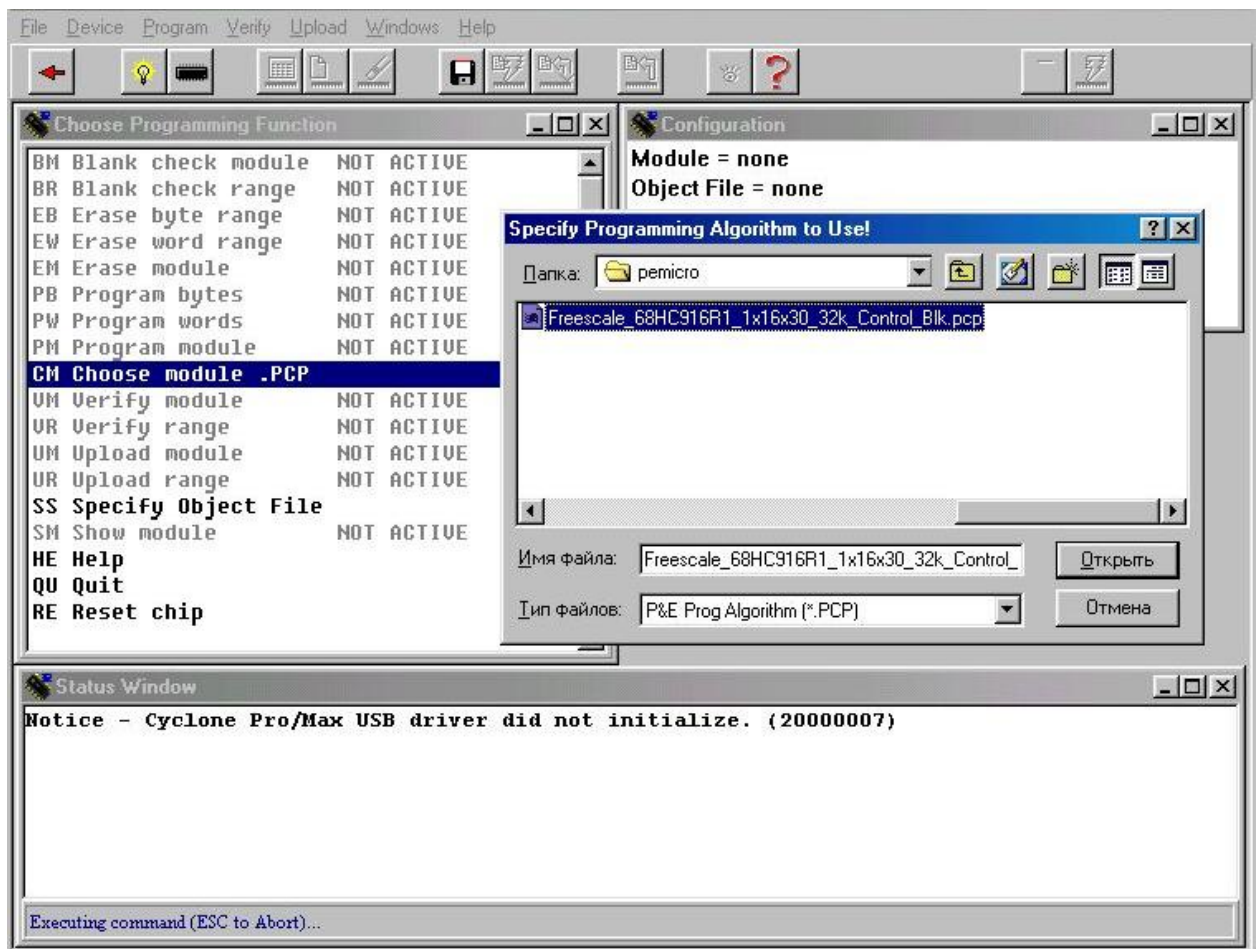

1. Open folder prog16z, launch prog16z.exe file.

Press Connect.

2. Select programming algorithm.

Select File from algorithms folder or NEW algorithms (on disk).

3. Enter base address- 00000000

4. File reading

File is been reading in Motorola S19 standard and to convert it in bin use MOT2BIN.exe utility.

Easy drag the file which has been read into the MOT2BIN.exe file and get result file with bin extension.

5. Write to file operation.

Before writing the file Erase must be done.

File intended to be written must be in Motorola S19 standard. To convert Bin file use Bin2s19.exe utility. Start utility, enter file name and press Enter.
